

Chicago Scene
100 W Randolph St, Chicago, IL 60601 -- Suite 210
Chicago, IL
Posted: February 23 2019
Application Deadline: March 25, 2019
Position: Full-time,
Timeframe: 03/01/19 — 09/30/19

Description

The right individual will immerse themselves in our website and management of our CMS system based on wordpress, PHP and CSS skill sets. They will work on web development and administration of the primary website in support of listing of events, businesses, promotions, articles and running digital marketing campaigns through web, social media, DFP ads and newsletters.

Responsibilities

Aid in the configuration and modifications to website and constant contact / mailchimp services as well as integration other third party platform interfaces through application developer kits and interfaces.

Requirements

Must have CSS, HTML and other requisite skills and training to work on the front and back end of websites and all platforms of digital media.
